151+	1.76	2.04	3.09	3.64	7.60	2.99	3.97	2.96	4.30	7.50	3.84	6.39	5.69	9.69	7.50	3.84	4.30	4.30

Note:

* For shipments over 150 lbs, you can calculate the rate by:
taking the 150 lbs rate and add the lbs over 150 multiplied by the rate per pound

Example: To calculate the rate for a 200 lb shipment to Zone A

When the 150 lbs rate is \$200 and the 151+ rate is \$2.40

200 lbs - 150 lbs = 50 lbs x \$2.40 = \$120

Total freight is \$200 + \$120 = \$320
